

The Sound That Will Move You

ANL Fuses & Holders

SOLID BRASS TRIPLE PLATED 24K GOLD

The high performance ANL style fuse holders are crafted from solid brass. They are triple plated / 24K gold to ensure maximum current flow and durability.

The FBNL-1 accepts up to 0-gauge input, it includes a 100 ampere ANL fuse and 2 hex wrenches to complete the job.

Safety is ensured by fully protecting the top & bottom of the holder (zero exposition) to outside elements. Fully insulated, corrosion resistant & long durability make the FBNL's the prime choice for professional installers.

FBNL-1: Comes complete with a 100 ampere ANL fuse and accepts one (0-4 gauge) input.

FBNL-150: Comes complete with a 150 ampere ANL fuse and accepts one (0-4 gauge) input.

ANL FUSES: Available in 100 / 150 / 200 / 250 ampere.
