## GRANDE 5

Cinénova Grande 5 is part of the legendary Cinénova series, known for its raw power and transparency. Earthquake designed this amplifier because of the high demand it received from customers.

With a monaural design and bridgeable capability, the Cinénova Grande 5 has a clear sound quality with low distortion. At 8-Ohms, the Cinénova Grande 5 outputs 360 WRMS measured with all channels driven and a whopping 600 watts per channel.

This rack-mountable amp will blend perfectly with your existing system. The Cinénova Grande 5 is not just a purchase, it is an investment. The Cinénova Grande 5 will provide you with true amplification no matter how your system changes and upgrades. With the increasingly popular surround sound audio format available with most movies, nobody needs to miss out on the true theater experience.

### CINÈNOVA GRANDE 5 FEATURES:

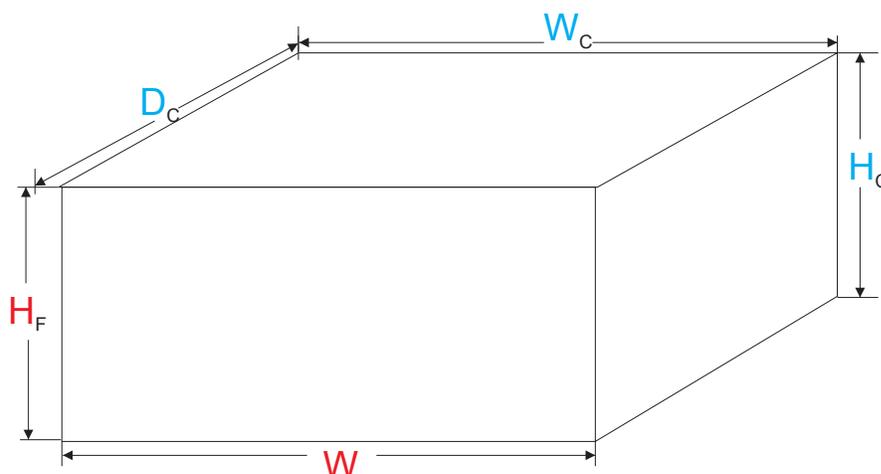

- Independent removable amplification blocks
- Built in line conditioner and surge protector
