

ROCK-on Outdoor Speakers

Product Release

Limestone-10D
Weather Resistant Outdoor Subwoofer

Limestone-82
Weather Resistant Outdoor Speakers

The Ultimate Outdoor Audio System

Limestone-82, part of the new ROCK-on outdoor speaker series, is specifically designed to imitate rock-like appearance while producing a crisp, clean and accurate audiophile sound. Made with UV treated, weather-resistant enclosure materials and durable epoxy resin construction, the ROCK-on speakers can withstand the demanding outdoor elements.

Limestone-10D ROCK-on subwoofer features a low pass crossover that reduces distortion and delivers pure bass to your outdoor space - something that is greatly needed in today's rock speaker market. It has an "S" shaped port to prevent water from getting trapped inside. We have tested and retested these subs to ensure it is up to par with our reputable line of subs. Combined with the Limestone-82 speakers, you can turn any backyard into a live concert area for all to enjoy.

ROCK-on outdoor speakers and subwoofers are also the ideal choice for listening to music in the garden, by the pool, in the yard, or on the patio.

Limestone-82 8", full range 2-way rock speaker
Limestone-10D 10", dual 4Ω rock subwoofer
