Model:
CM-6S

Model:
CM-6Dual

Model:
CM-8S

Model:
CM-8Dual

	CM-6S/DUAL	CM-8S/DUAL
(D) Diameter	9-7/8" (249mm)	11-7/16" (290mm)
(C) Cut Out Hole	8-1/4" (208mm)	9-3/4" (247mm)
(M) Mounting Depth	3-3/8" (87mm)	4-5/16" (110mm)

OBJECTIVE

The goal here is to reproduce the sound of a concert hall or the sound of a movie sound track in any room with ceiling mounted speakers.

IQ speakers deliver deep, natural bass from the design of their advanced cone and surround. Superb sonic accuracy is guaranteed by the utilization of glass fiber in the woofer and silk in the tweeters. Additionally, you can customize the sound of the speakers with mid and tweet adjustment switches that optimize the sound to the acoustics of the room and an end user's own personal preference.

In addition to all of great features mentioned above, IQ speaker are available in both single and dual voice coil options. This is offered so that when an area that would usually use two single voice coil speakers to reproduce right and left stereo is compromised by space an installer can simply install one dual voice coil speaker to reproduce the same effect.

Single V.C.

Dual V.C.

INTENDED USE

- ✓ Contractors, Custom Installers and Retailers
- ✓ Kitchens, Hall-ways, Bathrooms, Atriums
- ✓ New Construction & Retrofit Applications
- ✓ Home Theater & 2-Channel/Music Systems
- ✓ Can Be Used in Both Boats and RV's

SPECIAL FEATURES & HIGHLIGHTS

- Dual Silk, 20mm, swiveling neodymium tweeters
- Paintable Rust-proof Aluminum Grilles for superior protection and job flexibility
- PistonMax Design for a more accurate mid-bass with out distortion
- Low mass glass fiber cone bodies for a very smooth & accurate output with attention to detail that is unrivaled
- Dual or Single Voice Coil drivers available for multiple applications and distinct rooms such as bathrooms, hallways and atriums
- Gold plated spring loaded speaker terminals
- High quality capacitors and inductors
- Turn -N- Lock Installation for safe, efficient and professional installs
