

# SUPER TWEETERS

PRODUCT RELEASE

The Sound That Will Move You

## HDX2 HORN DRIVER

Earthquake's Horn Tweeter is used for midrange applications. Its phenolic diaphragm produces high fidelity sound throughout midrange frequencies.

## FEATURES

- Kapton copper voice coil
- High Sensitivity
- Low Distortion
- Smooth Response
- Die cast aluminum housing

## MATCHING HORNS

There are three horn attachments for the HDX2 that can be bought separately. Each style produces a unique sound and effect.

EQH11-25: 4-9/16" x 4-9/16" x 2-15/16"  
(115 x 115 x 75mm)

EQH-326: 10-7/16" x 4-3/8" x 6-3/4"  
(265 x 111 x 172 mm)

EQH-318: 5-15/16" x 5-15/16" x 9-15/16"  
(151 x 151 x 253 mm)

## BT44S & BT90S BULLET TWEETERS

The BT-S is a heavy duty titanium bullet tweeter. It efficiently hits highs and mids and can adapt to any system.

## FEATURES

- Titanium dome
- Ferrofluid cooled
- Die cast aluminum housing
- Kapton voice coil
- Crossover capacitor included
