

DJ-Quake P12

Passive Subwoofer System

Earthquake Sound is proud to bring to you the new DJ-Quake P12. This is a portable passive 12" subwoofer to add more punch to your existing DJ-Quake 2.1 v2 system.

The P12 is an excellent choice for the DJ on the go as well as audiophiles. It is extremely portable and weighs in at just under 38 pounds. The P12 accepts the following inputs; Speakon, TRS, and speaker level; thus it can be a great addition to the DJ-Quake 2.1 v2 or any DJ system.

The P12 alongside the DJ-Quake 2.1 gives the user the ability to scale their system no matter what size the venue is. When you need to double your bass, the P12 will deliver and keep the party going.

DJ-Quake P12 Features:

- 12-inch passive subwoofer
- 1000 watts (500 RMS)
- 35mm stand adapter
- Speakon input/output to pass the signal to an additional woofer
- Balanced TRS input and output
- Polyurethane box with carrying handles and corner bumpers
- Speaker level inputs
